

Wild Alaska Pollock North American Partnership Program Overview

Situation: Wild Alaska Pollock is one of the most abundant and sustainable fisheries in the world. It has a great story that should make it one of the most popular proteins on the planet. A cousin to cod, it has a mild flavor, beautiful flake, is nutritious and delicious, and is easily adaptable to a wide variety of preparations and applications. However, this highly versatile fish is not much utilized beyond its traditional applications of breaded portions and fish sticks and in surimi seafood products. While the members of GAPP support these traditional applications, we feel that there is a great deal of unrealized potential for Wild Alaska Pollock—both in how its presented, and where.

Request for Proposals: GAPP wants to work with partners on projects that help to build a brand identity for Wild Alaska Pollock in North America—increasing excitement about the fish and its story. In order to successfully create Wild Alaska Pollock pride, we collectively need to address barriers, formulate new ideas and new products, and offer innovative solutions for Wild Alaska Pollock to be integrated into products and product lines where it has previously been excluded and into retail, foodservice and other sales channels where it is not yet present. We also must bring attention to Wild Alaska Pollock in forums with influencers and consumers that were previously unaware of its existence and make them aware of its strong attributes as both an ingredient and center-of-the-plate protein. Partners should be prepared to share project ideas and work collaboratively with GAPP both to achieve these goals and communicate the success of the funded projects.

Proposal Review Timeline: Proposal Review Timing: In 2018-19, GAPP will hold three reviews for partnership proposals, as follows. Potential partners can choose the proposal review timing that works best for them and their program, Partners are not limited to one review period and may submit multiple proposals for review.

Review 1:	Proposals Due: November 30, 2018 Announcement: January 15, 2019
Review 2:	Proposals Due: March 29, 2019 Announcement: June 1, 2019
Review 3:	Proposals Due: October 1, 2019 Announcement: December 15, 2019

Project Requirements:

Geographic Scope: North America

Focus Areas: Projects must address 1) Wild Alaska Pollock as an exciting protein option in either new product innovations or current products or product lines where it is not now regularly present; 2) Space or channels in retail, foodservice or alternative markets where Wild Alaska Pollock is not regularly sold; or 3) Substantially increase the profile of Wild Alaska

Pollock in a forum with influencers or consumers largely unaware of the protein and its attributes.

Funding Level: Partners must indicate their investment in the project, any 3rd party commitments, as well as the proposed investment by GAPP. GAPP funding levels will be determined based on the project's ability to meet GAPP's intended goals for this partnership, the potential ROI, project impact, and available funds.

Reporting: Proposals should include a detailed description of how the partner intends to communicate publicly about the project as well as share information with GAPP about the progress of the project in real time. Proposals should detail metrics for success and written results of the project must be provided to GAPP following conclusion of the project that track against those metrics. Publicity on the project will be determined by agreement between GAPP and the partner, but partners should be willing to collaborate to determine the best method for on-going promotion and communication about the project and its impact on the Wild Alaska Pollock industry.

GAPP Payments: On proof of performance.

Proposal Submission Guidelines:

All applicants should complete the attached one-page template, providing an overview of your proposal as well as submit a written project proposal which includes the following information:

1. Name of promotion/project:
2. Promotion/project start date:
3. Promotion/project completion date:
4. Target market:
5. Geographic distribution/coverage:
6. Project/promotion goals & metrics for success:
7. Description of project/promotion: (Please include all strategies, tactics, components, materials, and provide visuals, if possible)
8. Description of the specific product to be promoted or forum where Wild Alaska Pollock will be presented (Please include product and/or menu description, percentage of Wild Alaska Pollock content, whether the product will be introduced as a permanent item or limited time offer, anticipated price point, anticipated reach/target audience, anticipated publicity, desired impact.)
9. Suppliers of the Wild Alaska Pollock for this product (list all as applicable)
10. Describe how the Wild Alaska Pollock message will be communicated to the target market and audiences. Describe how this project and its results will be communicated during the project

and following its conclusion both to GAPP members and the broader industry. How can GAPP help amplify your communications efforts?

11. Projected results, anticipated impact and how they will be measured, including any pre- and post-data or sentiment analysis/reach that will be collected. Indicate how the results of the project/promotion will be reported to GAPP and how GAPP can publicize the results of this project.
12. Proposed budget for promotion, including total costs and which portions of the budget would be paid for by you and which you propose would be paid for by GAPP.
